Premium HDMI Cables

HDMI SOLUTIONS TO SUPPORT ANY PROFESSIONAL INSTALLATION.

COPPER

18Gbps Premium HDMI Cables with Ethernet

Tested and certified through the Premium HDMI Certification Program, these cables reliably deliver full 18Gbps bandwidth necessary to support 4K UltraHD. Each Premium HDMI cable has been verified to meet requirements of the HDMI 2.0b specification and marked with the official HDMI Certification label to ensure authenticity.

10Gbps High-Speed HDMI Cables with Ethernet

Ideal for installations where the users will not be displaying content beyond 1080P resolution, these cables deliver uncompressed high definition audio and video, as well as Ethernet connectivity.

AOC FIBER

18Gbps Active Optical (AOC) HDMI Fiber Cables

Unlike copper 18Gbps HDMI cables which are limited in distance to 7 meters, the AOC HDMI cables reliably distribute 4K UltraHD in installations up to 75 meters. The cables are constructed with plastic optical fiber instead of glass, allowing flexible installation in tight spaces. For streamlined installation, these cables are solely powered by the source device and have color coded cable ends to minimize installation errors.

As digital content and video technology continue to evolve, selecting the right HDMI cable becomes vital in supporting the lasted advances is these technologies.

FEATURES

- Full range of High Speed HDMI cables to support 10.2 and 18.6 Gbps bandwidth applications

- In-wall copper HDMI Cables are tri-rated MCG, CL2-3, and FT4 for residential or commercial use

- In-wall AOC Fiber HDMI Cable is CMP rated for universal compliance

- Slimline HDMI cables offer flexibility and better cable management for connections outside the wall

- 18Gbps HDMI cables offer an enhanced retention grip for a more secure connection
