mini OTDR
for 1550/1310 nm (28/26dB)

PLATINUM TOOLS®

FEATURES

- **OTDR Auto Testing**
  Auto test with event map for quick results

- **OTDR**
  3m - 105km OTDR test range

- **Reporting**
  OTDR Test results exportable as PDF or SOR

- **Multi Tester**
  Includes VFL, OPM, & LS

- **RJ45 Testing**
  Continuity and TDR Length Measurement

- **Visual Fault Locator (VFL)**
  10mW 650nm Laser

- **Optical Power Meter (OPM)**
  1625, 1550, 1490, 1310, 1300, & 850nm

- **Light Source (LS)**
  1310nm,1550nm

Meet the PT-OTDR-100, your go-to tool for precise fiber optic testing, that's priced to supply every truck and technician. This advanced Optical Time Domain Reflectometer (OTDR) offers quick, accurate fault detection and signal analysis, perfect for field technicians and network engineers. With its user-friendly design and robust performance, the PT-OTDR-100 ensures your fiber networks run smoothly and efficiently. Upgrade your testing capabilities with the PT-OTDR-100.

ALL MODELS FEATURE

- 5.5" OLED Touch Screen
- RJ45 Remote for Continuity Testing
- Carrying Case & Charging Cable
- Adapters for OTDR Interface
