

FIBER CLEANER

by Total Cable Solutions

Fiber optic mini cleaner is expertly designed to work with SC, FC, ST, LC and MTP®/MPO connectors to clean the ferrule. Best practices are to clean EVERY cable before installation (including NEW CABLES before first use). Removal of dust, oil, and other debris helps avoid nicking or scratching the end face before use of a fiber optic cable thereby extending the life of the cable.

Easy-to-use Design

Easy push motion engages connector and initiates cleaner

Disposable

500+ cleanings (for LC, SC, ST, FC); 600+ cleanings (MTP®/MPO) before disposing

Micro Fibers

Densely stranded micro fibers clean without dust or debris

High-speed Support

40/100G leaves less room for insertion loss making a clean cable even more important

Features

- Made from anti-static resin
- Extendable tip reaches recessed connectors
- Cleaning system rotates 180 degrees for a full sweep
- User friendly click when engaged

Applications

- Fiber network panels and assemblies
- Outdoor FTtx applications
- Cable assembly production facility
- Testing laboratories
- Server, switches, routers and OADMS with SC and LC interface

Ordering Information

- PN: FOC-LC-OC (Cleans LC and MU 1.25 adapters and ferrules)
- PN: FOC-SC-OC (Cleans SC, ST and FC 2.5 adapters and ferrules)
- PN: FOC-MPO-P (Cleans MTP®/MPO adapters and ferrules)
